THE STORY

The
Bravest
KNIGHT

Based on the hit children's novel written by NY Bestselling author Daniel Errico, *The Bravest Knight* continues the story of Cedric the Pumpkin Knight and Prince Andrew as they work together to train their daughter Nia on how to be a great knight.

During his teachings, he regales her with stories when he was just a Not-Yet-Knight travelling alongside his friend Grunt to help others in need within the Kingdom of Loria.

THE CHARACTERS

SIR CEDRIC

Sir Cedric, "The Pumpkin Knight", 35, and happily married to The Prince, is wiser and more reserved than he was in his younger days.

No longer seeking the fame and accomplishments that he once did, Cedric's sole focus is on his daughter, Nia, learning the ways of knighthood.

As he regales her with tales from his youth, Cedric gets lost in the stories, sometimes happily and sometimes not.

His daily struggle is to encourage the boldness that he sees in his daughter, while preparing her for the dangers ahead.

He is responsible and steadfast in his caring for Nia, but enjoys having fun just as much as the next fairytale hero.

NIA

Nia, 10, is the daughter of Cedric and his husband, The Prince.

She's impetuous with Cedric's same passion for becoming a knight.

However, instead of hoping to prove her bravery, Nia is more interested in fun adventures. She doesn't take well to sitting still, and likes to hop on her horse, Sky, when a parental speech gets too boring.

Nia cares deeply for her fathers, but doesn't always know how to show it. As an energetic and headstrong Not-Yet-Knight, Nia doesn't care much for the rules, much to her parents' chagrin.

THE PRINCE

The Prince, 33, has many responsibilities, like learning how to rule the kingdom from his father.

Although busy, The Prince finds time to help with Nia's training and the moral lessons that accompany it.

As royalty from birth, The Prince has a different perspective than Cedric on the many adventures they encounter together.

Still, they always agree on fundamentals of right and wrong, and hold Nia, paramount.

Leaving the bulk of her tutelage to Cedric, The Prince is decidedly less strict, and always up for a fun time.

CEDRIC

At 10, Cedric is an ambitious and kind Not-Yet-Knight. His constant desire to prove his courage leads him to look before he leaps, learning lessons the hard way.

Cedric is a born leader and a fierce defender of the underdog, ever since his humble beginnings as a pumpkin farmer.

His ample smarts usually come in the form of resourceful solutions to tricky situations. Although he has a reputation for always doing the right thing, Cedric is not above a playful prank or a snide remark.

GRUNT

A wandering, bridge-less troll, Grunt never listened to anyone, until he met Cedric.

Grunt's knowledge of magical and non-magical creatures alike makes him a valuable addition to any quest. He exhibits some wild instincts, but as a loyal friend to Cedric, he proves time and time again that he's more than meets the eye.

Less altruistic than Cedric, Grunt rises to the occasion to do what's right surprisingly often (even if he does it kicking and screaming).

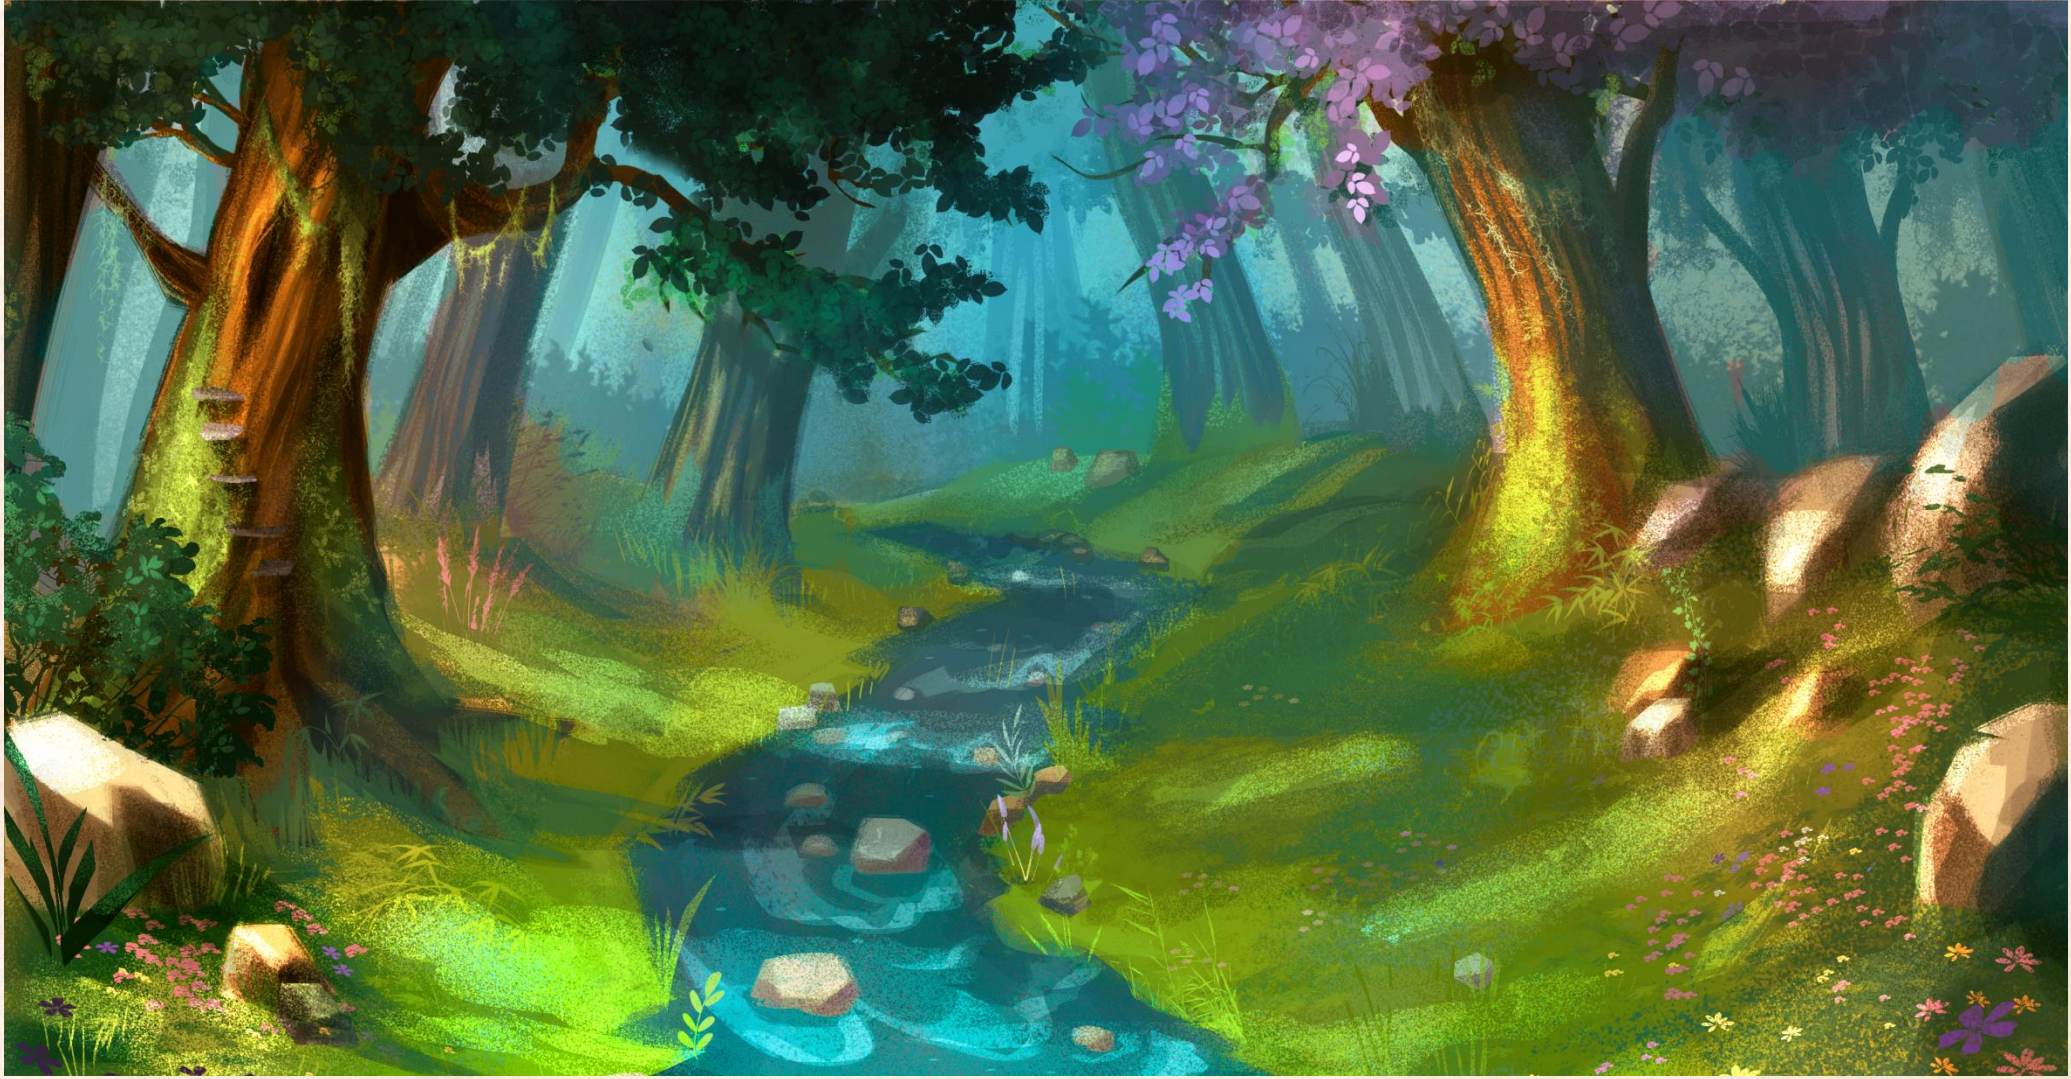

Tip: The easiest way to get close to Grunt is through flattery. But don't get too close, because he hasn't bathed in years.

SAMPLE EPISODES

CEDRIC THE TROLL

As Nia readies herself for an exciting first lesson on how to become a Knight, Sir Cedric tells her a tale about trust and how young Cedric discovered the bridge-less troll named Grunt.

CEDRIC THE GREEN LEAF

Jousting is an essential skill for a Not-Yet-Knight, but before Nia can learn, Sir Cedric offers a tale of his first tournament, which taught him to never underestimate the size or gender of his opponent.

CEDRIC THE GIANT

On a busy day in the market, The Prince and Sir Cedric decide to help local villagers. A bored Nia, however, is much more interested to learn about the time when Cedric and Grunt were captured by a giant and met a flute with magical powers.

CEDRIC THE DARK CASTLE

When Nia questions why a Not-Yet-Knight needs swim lessons, we hear the delightful tale of how Cedric stole into a dark castle and first encountered Saylor, his raven companion.
